Subject: Helicopter Reconnaissance
Date: Sunday, October 26, 2014 8:32:41 AM

Sunoco Logistics has contracted with a local flying service (PHI) to conduct helicopter reconnaissance flights over the spill area on Sunday October 26th. They have invited members of Unified Command to accompany them on a flight in order to gauge overall progress of the spill from an aerial viewpoint as well as being able to quickly survey potential entry points into Caddo Lake and verify that there continue to be no oil impacts to the lake. The flight is scheduled for around 2:00pm. It will originate from the Shreveport Airport and will last approximately 45 minutes.
